

# US-175LS

## ULTRA SEAM<sup>®</sup> US-175LS LOK SEAM ROOFING SYSTEM

The Ultra Seam Lok Seam metal roofing system uses state-of-the-art technology to create a roof of weather tightness and integrity. Seams require no machine closing, which may reduce installation time over machine closed panels. The panels slide together and are continuously and securely locked in place, creating a unique look.

### SPECIFICATIONS

**TESTING:**

UL 90 Classified

**AVAILABLE MATERIALS:**

Galvanized steel, Galvalume<sup>®</sup>, cold-rolled steel, copper, stainless steel, zinc and aluminum

**AVAILABLE STEEL PANEL SIZES (US-175LS):**
